

Tencent Security Response Center (TSRC) Terms

Welcome to the Tencent Security Response Center (hereinafter referred to as "TSRC")! By accessing or using the TSRC, conduct security testing on any of our web or mobile sites or products, submitting vulnerability reports or seeking a reward you confirm your acceptance of these TSRC Terms and the Tencent Terms of Service, at www.tencent.com/en-us/zc/termsofservice.shtml, as amended from time to time, and form a legally binding agreement ("Agreement") on behalf of yourself and, if applicable and in particular if the testing is conducted in the course of or has any connection to your employment, your employer or any legal organization that you represent (collectively "you") with Tencent International Service Pte. Ltd., 10 Anson Road, #21-07 International Plaza, Singapore 079903 ("us" or "we"). We do not accept, and we hereby expressly reject any other, different or supplemental terms or conditions.

1. You may submit a truthful and valid vulnerability report regarding a data security weakness regarding any of our web or mobile sites or products, voluntarily and at your sole discretion, in furtherance of our endeavours to take reasonable measures to secure our computer systems and resources.

2. We may, voluntarily and at our sole discretion, evaluate and rank the vulnerability report you submitted and reward you according to the severity of the vulnerability. We may follow the guidelines set forth in our ***TSRC Evaluation and Rewards Terms at [https://en.security.tencent.com/uploadimg_dir/other/TSRC Evaluation and Rewards Terms.pdf](https://en.security.tencent.com/uploadimg_dir/other/TSRC_Evaluation_and_Rewards_Terms.pdf), as amended from time to time*** but reserve the right to make exceptions and apply our judgment.

3. You must comply with all applicable laws and refrain from unauthorized access to any computers, accounts or personal data (which includes without limitation data relating to an identified or identifiable natural person). You must not submit any software, technology or information subject to export controls to us (if you are uncertain whether the materials you propose to submit are subject to export controls or other restrictions, we recommend you seek legal advice). We do not authorize you to circumvent any technical protection measures, access any computers or accounts, or collect any personal data. If you inadvertently cause a violation of applicable data protection laws (e.g. by accessing user account data or financial information) while conducting vulnerability testing, you must disclose this in your report. You must immediately delete from your systems any personal data you inadvertently access and

return the personal data to its original location. You are authorised in this context to conduct vulnerability assessments only on your own accounts (including test accounts) and data. You must not affect the normal operation of our sites or products, or cause the denial of access to other authorised users. You are responsible for ensuring that you comply with the terms and conditions of any relevant employment contract to which you are subject, and with all local regulations concerning the allocation and payment of any potential rewards. For the avoidance of doubt, the scope of the program is limited to technical vulnerabilities in Tencent-owned mobile and web applications and products. Nothing in these Terms grants you permission to (without limitation):

(a) access any communications of any person or entity using Tencent services or systems; or

(b) access or test third party systems or websites.

4. You must keep our technical and trade secrets confidential and refrain from publicizing vulnerabilities until we had a chance to remedy the problem and grant you express permission to publicize your insights. You must not infringe our intellectual property rights and nothing in these terms grants you any rights to use or exploit our intellectual property or that of any third party.

5. You must not use TSRC unless you are 18 years or older or you have obtained express written consent to conclude this Agreement from your parents or guardian.

6. We are unable to issue rewards to individuals who are subject to trade sanctions, embargoes or denied person status. If we grant you a reward, you must comply with local tax laws and you are responsible for any tax implications. You must also comply with any currency restrictions and any formalities required for receiving reward in your jurisdiction. You shall accept the payment methods for the Service published by us from time to time. In the event that none of the published payment methods can be used to receive payments in your territory, you shall be responsible to notify us of a workable alternative. We shall not be obliged to accept any alternative payment proposal.

7. We reserve the right to update, modify or terminate the TSRC and these TSRC Terms at any time and at our sole discretion.

8. If any portions or terms of the Agreement are partly invalid or unenforceable for whatever reason, the remaining terms are still valid

and binding on both sides.

9. You indemnify and hold us harmless in respect of any breach by you of these TSRC Terms or the Tencent Terms of Service or of applicable laws by accessing or using the TSRC, conducting security testing, submitting vulnerability reports or seeking a reward.

10. In the event of any discrepancy among different language versions, the English version shall prevail.
